DISTANCE LEARNING

The Governing Board recognizes that distance learning can be a viable alternative instructional strategy that supports student achievement of academic goals. Distance learning opportunities may be offered to students participating in independent study, credit recovery courses, enrichment courses, or other courses identified by the Superintendent or designee, or in the event that a school site is physically closed due to widespread illness, natural disaster, or other emergency.

The District may offer distance learning through a variety of delivery methods as appropriate for the grade level and subject matter. Distance learning opportunities may include video, audio, and/or written instruction in which the primary mode of communication between the student and teacher is online interaction, instructional television, live or prerecorded video, telecourses, and other instruction that relies on computer or communications technology. They may also include the use of print materials with written or oral feedback.
